MID-YEAR FISCAL POSITION REPORT 2018

Ministry of Finance and Mass Media, Sri Lanka

MID - YEAR FISCAL POSITION REPORT - 2018

Issued under Section 10 of the Fiscal Management (Responsibility) Act, No. 3 of 2003

> Mangala Samaraweera, M. P. Minister of Finance and Mass Media

> > 30th June 2018

Mid-Year Fiscal Position Report Issued by the Hon. Minister of Finance and Mass Media Under Section 10 of the Fiscal Management (Responsibility) Act, No. 3 of 2003

In terms of Section 10 of the Fiscal Management (Responsibility) Act, No. 03 of 2003, the Minister of Finance is required to present the Mid-Year-Fiscal Position Report to the public by the last day of June of the year and thereafter lay before Parliament.

The purpose of this report is to provide updated information on the Government's fiscal performance as per the fiscal strategy of the Government.

The report contains the performance of government revenue, expenditure, cash flow operations and borrowings during the first four months of the year 2018. The report also provides provisional budget outturn for the first four months of 2018, updated information, depending on the availability of information, relating to macroeconomic performance, price developments, foreign financing, government debt and official reserves as well as the performance of state owned business enterprises.

CHAPTER 1

Economic Perspectives

1.1 Economic Growth

Sri Lankan economy expanded by 3.2 percent, in real terms, in the first quarter of 2018 compared to 3.8 percent in the same period of 2017. Agriculture sector showed improvements particularly in areas such as growing of cereals, rice, and fresh water fishing and fresh water aquaculture. Agriculture sector grew by 4.8 percent in the first quarter of 2018 from 3.2 percent negative growth recorded in the same quarter of 2017. Industry and Services sectors expanded by 1.0 percent and 4.4 percent, respectively in the first quarter of 2018. Prolonged droughts condition in certain areas and the floods and landslides occurred in several districts in the country adversely affected to the economic activity.

Agriculture, Industry, Services and 'Taxes less Subsidies on products' contributed to GDP by 7 percent, 30 percent, 54 percent and 9 percent, respectively in the first 2018. Agriculture quarter of sector expanded by the increase in value-added production of cereals, rice, vegetables and fresh water fishing. Paddy production during 2017/18 Maha season significantly increased by 60 percent to 2.4 million metric tons compared to 1.5 million metric tons recorded in 2016/17 Maha season mainly

due to the favourable weather condition. However, coconut and rubber production contracted significantly recording a negative growth of 14.9 percent and 13.8 percent, respectively. Inland fishery sub-sector benefitted from the increase in releasing fingerlings to the tanks. Meanwhile, the marine fish sub-sector expanded due to the increase in demand for Sri Lankan sea foods exports after lifting the ban on the fish exports by the European Union (EU).

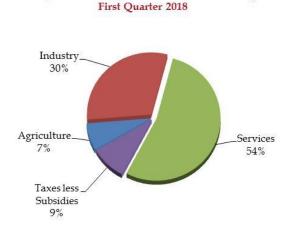

Chart 1.2 | Sectoral Composition of GDP at curent prices -

The value-added Industry sector expanded by 1.0 percent in the first quarter of 2018 compared to 6.3 percent in the same quarter of 2017. Industry activities including food and beverages, wood, chemical products, rubber and plastic products, basic metals, electricity, gas, steam and air conditioning supply, sewerage and waste activities positively contributed to the growth in Industry sector. The wood and wood products expanded by 11.9 percent in the review period from the contraction of 2.1 percent recorded in the same period of 2017.

	Economic Activity	2017	Rs. Million 2018 (Prov.)	Rate of Change (%)

Similarly, electricity, gas, steam and air conditioning supply sub-sector significantly increased by 10.2 percent in the first quarter of 2018 compared to 0.3 percent negative growth witnessed in the same period of 2017. The value-added production of petroleum sector contracted by 38.8 percent in the review period. However, export earnings from petroleum increased by 49.6 percent to US\$ 135.5 million in the first quarter of 2018 from US\$ 90.6 million in the same quarter of 2017. Electricity power generation increased by 9.6 percent to 3,838 GWh during January-March 2018 from 3,500 GWh in the same period of 2017. The hydropower generation increased by 87.6 percent to 650 GWh in the review period due to the heavy rain in the country.

Services sector grew by 4.4 percent in value added terms during the first quarter of 2018 compared to 3.5 percent in the respective quarter of 2017 supported by the expansion of financial service, telecommunication, accommodation, insurance, wholesale and retail trade, real estate, professional services and postal and courier activities. Financial service activities in value-added terms increased by 12.2 percent in the first quarter of 2018 compared to 14.9 percent recorded in the same period of 2017. Meanwhile, insurance activities expanded by 9.3 percent in the review period.

Telecommunication activities increased by 11.1 percent in value added terms in the first

quarter of 2018 due to the increased usage during review period. Wholesale and retail trade sub-sector expanded by 5.4 percent in value-added terms in the first quarter of 2018 compared to 4.5 percent recorded in the same quarter of 2017 with the increased domestic external trade activities. Meanwhile, sub-sectors such as postal and courier services, accommodation, food and beverages, and real estate expanded by 6.5 percent, 7.6 percent and 4.9 percent, respectively in value added terms during the review period.

1.2 Inflation

Inflation, as measured by the change in the National Consumer Price Index (NCPI) (2013=100), decreased to 5.4 per cent in January 2018 from 7.3 per cent in December 2017, on year-on-year basis. This decline is due to the high base prevailed in January 2017 as well as the monthly decline in food prices in January 2018. The change in the NCPI measured on an annual average basis decreased from 7.7 per cent in December 2017 to 7.6 per cent in January 2018.

The inflation further decelerated to 1.6 per cent in April 2018 from 2.8 per cent in March 2018, on year-on-year basis driven by the higher base affect resulting from the increase in food prices during April 2017. The change in the NCPI measured on an annual average basis decreased from 7.6 per cent in January 2018 to 6.1 percent in April 2018.

The year-on-year inflation as measured by Colombo Consumer Price Index (CCPI) was 4.0 percent in May 2018 compared to 6.0 percent in May 2017. Year-on year inflation of food items declined from 9.3 percent in May 2017 to 3.3 percent in May 2018 while that of non-food items increased from 3.8 percent in May 2017 to 4.2 percent in May 2018. Inflation is expected to remain at mid-single digit level during 2018 with the gradual management of demand pressure and the inflation is projected to stabilize within the range of 4-6 percent over the medium term.

1.3 Money and Credit

Growth in reserve money, broad money (M2b) and the private sector credit increased during the first four months of 2018. In line with stabilized inflation in mid-single digit level over the medium term, the Central Bank of Sri Lanka (CBSL) lowered the Standing Lending Facility Rate (SLFR) by 25 basis points to 8.50 percent in April 2018

while maintaining the Standing Deposit Facility Rate (SDFR) unchanged at 7.25 percent. Accordingly, money market interest rates particularly interest rates on lending are expected to adjust downwards in the period ahead as a result of policy rate adjustment in April 2018.

Reserve money grew by 11.8 percent in March 2018 on year-on-year basis, while the year on-year growth of broad money was 16.4 percent in March 2018 compared to 20.0 percent in March 2017. Moreover, private sector credit increased by 15.3 percent in March 2018 on year-on-year basis due to high seasonal credit demand. Private sector credit appears to have been fairly distributed across all major sectors of the economy.

* With effect from June 2012 Milanka price Index has been replaced by S & P SL 20 Index

All Share Price Index (ASPI) reached 6398 points by end of May 2018, which is a drop of 4.1 percent in comparison to the end of May 2017. Meanwhile, the S&P SL 20 Index decreased by 6.6 percent to 3567 points by end May 2018. However, the daily average turnover increased by 10.8 percent to Rs.998 mn during the first five months of 2018 in comparison to the corresponding period of Further, the previous year. market capitalization increased by 1.2 percent to Rs. 2,989 bn from Rs. 2,953 bn during the corresponding period of 2017.

1.5 External Sector Developments

Sri Lanka's external sector recorded improved performance during the first four months of 2018 with higher inflows to the financial account and increased workers' remittances and tourist earnings. Gross official reserves marked the highest-ever level of USD 9.9 billion as at end April 2018 with the proceeds of International Sovereign Bond (ISB) issuance and increased foreign inflows to the Colombo Stock Exchange (CSE) and government securities market. However, trade deficit expanded to USD 3,981 million during the first four months of 2018 due to the increase in import expenditure (12.8 percent) against the moderate performance of export earnings (6.0 percent). Despite the expansion of the trade deficit, Balance of Payment (BOP) recorded a surplus of USD 2,036 million as

at end April 2018 compared to a deficit of USD 344 million in the same period of 2017.

Exports

Earnings from exports increased by 6.0 percent to USD 3,784 million in the first four months of 2018 mainly driven by earnings from industrial exports. Earnings from garment exports increased by 2.1 percent to USD 1,564 million in the first four months of 2018 due to increased exports to USA and the European Union. Tea and rubber exports increased by 4.3 percent and 12.9 percent, respectively in the first four months of 2018. However, export earnings from coconut and spices declined by 12.8 percent and 12.1 percent, respectively in the review period due to the decline their domestic production. The USA, the UK, India, Germany and Italy were the leading export destinations for Sri Lankan products in the review period.

Imports

Expenditure on imports increased by 12.8 percent to USD 7,765 million in the first four months of 2018 where intermediate and consumer goods categories were the major contributors. Import expenditure on fuel became the largest contributor to the overall import expenditure of which import bill of refined petroleum increased by 27 percent to USD 1,054 million while import expenditure on crude oil and coal declined during the first four months of 2018. Expenditure on motor vehicles increased significantly by

108.2 percent to USD 516.6 million in the first four months of 2018 mainly due to the higher imports of less than 1000cc motor cars. However, import expenditure on rice declined by 10.7 percent to USD 98.8 million during the review period. Meanwhile, expenditure on gold imports increased significantly by 126.5 percent to USD 437.3 million during the period. The government

imposed Customs duty of 15 percent on gold imports effective from 18 April 2018. Meanwhile, the increase in import expenditure on fertilizer by 291.0 percent also contributed to scale up the import bill of the country. India, China, UAE, Japan and Singapore were the main import origins for Sri Lanka.

Current Account

Tourist arrivals increased during the first four months of 2018 driven by a higher number of tourists arriving from the UK, India and Australia. Total tourist arrivals during the first four months of 2018 was 888,253, an increase by 16.1 percent compared to the same period of 2017. Earnings from tourism amounted to USD 1,647 million in the review period. Workers' remittances increased by 5.0 percent to USD 2,520 million in the reviewed period.

Financial Flows

Foreign investments in the CSE amounted to

USD 47.2 million in the first four months of 2018. Meanwhile, substantial foreign financial inflows to government securities market were USD 13.6 million as at end April 2018 while long term loan to the government was USD 30.1 million in the review period.

International Reserves

The gross official reserves were amounted to USD 9.9 billion which is equivalent to 5.5 months of imports at end April 2018. Total foreign assets were estimated at US dollars 12.3 billion as at end April 2018.

CHAPTER 2

Global Economic Trends

2.1 Global Economic Developments

The Global growth has strengthened over the course of the year. The global economic growth is expected to increase from 3.8 percent in 2017 to 3.9 percent in 2018 supported by strong growth momentum in China and Japan and other East Asian economies. The drivers of growth have been broad-based with strong business sentiment, tightened labour market conditions coupled with increased investment and industrial production. The United States (US) economy is expected to grow at above potential rate. However, on- going tax reforms in the US will adversely affect to the potential growth. The Euro Area is expected to grow at 2.4 percent in 2018 compared to 2.3 percent in 2017 reflecting stronger than expected domestic demand across the Euro area, supportive monetary policy and improved external demand prospects.

In emerging market and developing economies (EMDEs), growth is expected to increase from 4.8 percent in 2017 to 4.9 percent in 2018 mainly due to the ongoing cyclical recovery in commodity exporters and robust activity in commodity importers. The recovery in commodity exporters has broadened reflecting the strengthening investment, rising corporate earnings, and supportive monetary policies. Similarly, in commodity importers, growth remains strong, supported by robust domestic demand and solid exports. However, China's growth is projected to moderate at 6.6 percent in 2018 and 6.4 percent in 2019 reflecting an improved external demand outlook. Meanwhile, India's economy is projected to grow at 7.4 percent in 2018 and 7.8 percent in 2019 mainly due to the transitory effects of the currency exchange initiative and the implementation of the goods and services tax.

However, geopolitical uncertainly remains a concern. High levels of debt and overcapacity of some sectors are expected to increase vulnerabilities to China's economy. In addition, demographic change and slower productivity growth in many countries will slower the global economic growth over the medium to long term.

Growth in low-income countries is expected to rise from 5.5 percent in 2017 to 5.7 percent in 2018 and 6.1 percent in 2019-20. This was mainly driven by higher mineral production, rising oil and metals prices, improving agricultural output, and continued infrastructure investment.

Country	GDP Growth (Annual percent change)	Inflation (Percent)	Unemployment (Percent)	Fiscal Balance (Percent of GDP)	Gross Debt (Percent of GDP)

2.2 Global Inflation and Interest Rates

The global inflation is projected to increase in 2018 due to the increase in commodity prices in both advanced and emerging market and developing economies. Inflation rates in advanced economies are projected to pick up to 2.0 percent in 2018. The annual inflation in the US is estimated to increase to 2.5 percent in 2018 with the recovery in energy prices. Inflation in the Euro economies is projected at 1.5 percent in 2018. The inflation in the United Kingdom is expected to remain unchanged at 2.7 in 2018 due to pass-through effects of depreciation of the sterling pound and slow growth in the economic activity. Higher energy and food prices and strong domestic demand experienced in Japan are expected to push inflation up to 1.1 percent in 2018-2019. Meanwhile, Inflation in emerging market developing economies and (excluding Venezuela) is projected to rise to 4.6 percent in 2018. Inflation in China will increase to 2.5 percent in 2018 India's inflation is expected to be at around 5.0 percent in 2018 and 2019.

With regard to interest rates, the "World Economic Outlook" (WEO) 2018 report hypothesizes that the London interbank offered rate (LIBOR) on six-month U.S. dollar deposits, on average, will be 2.4 percent in 2018 and 3.4 percent in 2019. Meanwhile, the rate on three-month Euro deposits is expected to average –0.3 percent and 0.0 percent in 2018 and 2019, respectively. The interest rate on six-month Japanese Yen deposits will turn out to be 0.0 percent in 2018 and 0.1 percent in 2019.

2.3 Exchange Rates

Exchange rates in both advanced economies and emerging market and developing economies strengthened during 2018 reflecting the uptick of commodity prices. According to the "WEO 2018 report" of the IMF, the U.S. dollar and the euro remain close to their August 2017 level in real effective terms. The Japanese yen has depreciated by 5 percent owing to widening interest differentials and sterling pound has appreciated by close to 4 percent due to raising interest rates by the Bank of England in November, 2017. Across emerging market currencies, the Renminbi has appreciated by around 2 percent and the Malaysian Ringgit has strengthen by about 7 percent on an improved growth outlook and stronger commodity prices. In contrast, the Mexican Peso has depreciated due to the renewed uncertainty associated with the ongoing NAFTA negotiations and the Turkish Lira by 4.5 percent on higher inflation expectations.

2.4 Fiscal Deficits

The average fiscal balance of the world contracted by 0.1 percentage points to 3.2 percent of GDP in 2018 from 3.3 percent of GDP in 2017 reflecting the gradual recovery in energy and commodity prices and strengthening global trade. The fiscal deficit to GDP ratio of advanced economies, on average, marginally increased to 2.7 percent in 2018 and expected to be remained at 2.8 percent in 2019. In a few countries, the fiscal stance was mildly expansionary reflecting higher current spending in the US and higher capital spending in Canada and Japan. However, fiscal deficit to GDP ratio of the emerging market and middle-income economies slightly contracted to 4.2 percent in 2018 from 4.4 percent in 2017 with diverging fiscal developments across countries. Furthermore, the average fiscal deficit in low-income developing economies remained at around 4.2 percent of GDP in 2018. Deficits continued to deteriorate among commodity exporters, although the improvement in commodity prices during the second half of the year that raised revenue slightly.

2.5 Government Debt

The government debt as a percentage of GDP in the globe contracted to 82.1 percent in 2018 from 82.4 percent in 2017. The gross government debt as a percentage of GDP in advanced economies decreased marginally to 103.9 percent in 2018 from 105.4 percent in 2017. In contrast, government debt to GDP ratio in emerging market and developing economies is estimated to be about 51.2 percent in 2018. It is expected to increase the ratio to 52.9 percent in 2019. Meanwhile, the government debt to GDP ratio in low-income developing countries is projected to rise to 45.5 percent in 2018 from 44.3 percent last year.

2.6 International Trade and Commodity Prices

World merchandise trade growth is expected to remain strong in 2018 and 2019 supported by robust global economic growth, investment growth in advanced economies particularly in the US and rising consumption in Japan. The world trade volume is expected to grow by 4.4 percent in 2018 from 4.7 percent in last year. Exports of developed and developing and emerging economies are expected to be at 3.8 percent and 5.4 percent, respectively in 2018. Meanwhile, imports of developed and developing and emerging countries are expected to grow at 4.1 percent and 4.8 percent, respectively in 2018.

Commodity prices strengthened in the first quarter of 2018. Crude oil prices are projected to average \$65/bbl in 2018 and 2019 due to the robust demand, continued production restraint by OPEC and non-OPEC producers and rising U.S. oil production. Coal prices are expected to average \$85/mt in 2018 due to the of replenishment inventories and curtailment of consumption. Further, world oil consumption is projected to increase by 1.5 percent (y/y) in 2018.

The Agricultural prices are expected to rise 2.2 percent in 2018 and 1.3 percent in 2019 due to the reduction of production. Grain prices are expected to increase 7.5 percent in 2018 and rise an additional 1.8 percent in 2019. Oils and meals are projected to rise 4 percent in 2018 reflecting the tight soybean supplies. Beverage prices are expected to remain unchanged in 2018. Raw material prices are projected to jump 2.5 percent in

2018 and tick up further in 2019. Fertilizer prices are forecast to rise by 2 percent in 2018 on relatively firm demand, but markets are anticipated to remain well supplied. Metals prices are projected to increase 9 percent in 2018.

CHAPTER 3

Fiscal Developments

3.1 Overview

The government further strengthened the revenue-based fiscal consolidation process in the first four months of 2018 with increased tax revenue and improved management of public expenditure. Government revenue increased by 5.6 percent to Rs. 622,379 million in the first four months of 2018 compared to Rs. 589,439 million in the same period of 2017, realizing 28.1 percent of the annual estimate. Tax revenue marginally increased by 2.8 percent to Rs. 570,471 million while non-tax revenue significantly increased by 49.5 percent to Rs. 51,907 million in the review period compared to the same period in 2017. Such increase of non-tax revenue can mainly be attributed to the transfer of Central Bank the Consolidated profits to Fund. Meanwhile, government expenditure increased by 6.1 percent to Rs. 873,350 million in the first four months of 2018 compared to Rs. 823,260 million in the same period of 2017.

Several tax reforms were implemented by broadening the tax base, simplifying the tax system, rationalizing the tax exemptions and strengthening the tax administration process. New Inland Revenue Act was introduced effective from April 01, 2018 to increase direct tax collection. Accordingly, three-tier income tax rate structure was introduced: (i) standard rate of 28 percent; (ii) concessionary rate of 14 percent; and (iii) higher rate of 40 percent. Employment income is taxed under progressive rates up to 24 percent and slabs applicable for taxable income of an individual were broadened. Also, income tax on capital gains was introduced with a rate of 10 percent applicable on the land and buildings and other investments excluding quoted shares. Meanwhile, Economic Service Charge (ESC) was imposed at the point of importation for vehicles. ESC threshold was reduced to Rs. 12.5 million per quarter from Rs. 50 million per quarter with effect from April 01, 2017. Benefiting from the above tax reforms together with improved tax administration at the Inland Revenue Department (IRD), Sri Lanka Customs (SLC) and the General Treasury, the revenue generated from income tax increased by 12.3 percent to Rs. 95,128 million in the first four months of 2018 compared to Rs. 84,721 million recorded in the same period of 2017.

Table 3.1 | Government Fiscal Operations: January - April

Source: Department of Fiscal Policy

Several policy measures were taken by the government to augment the revenue from indirect taxes during the first four months of 2018. The unit rate was introduced as the basis of calculation of excise duty on motor vehicles to avoid possible revenue losses arisen from under valuation. Special Commodity Levy (SCL) rates were revised to protect the domestic industries. Certain exemptions granted on Nation Building Tax (NBT) were removed.

As assisted by such revenue measures together with enhanced domestic activities, the revenue generated from domestic activity-based taxes increased by 9.1 percent to Rs. 193,394 million. However, revenue from imports-based taxes declined by 3.6 percent to Rs. 268,007 million in the first four months of 2018 compared to the same period in 2017. Revenue generated from Value Added Tax (VAT) on domestic activities increased by 5.6 percent to Rs. 102,220 million and VAT on imports increased by 2.5 percent to Rs. 57,029 million during January to April, 2018. Such increase of VAT revenue can be mainly attributed to the policy measures taken to broaden the tax base and the increase in VAT rate to 15 percent at end 2016. Revenue generated from NBT on domestic activities increased by 8.7 percent to Rs. 18,289 million while revenue from NBT on imports increased by 3.1 percent to Rs. 6,424 million during January to April, 2018. This was mainly due to the broadening the tax base with the reduction of NBT liable threshold at end 2016 and the removal of certain exemptions on Services sector.

Table 3.2 | Estimated and Actual Revenue & Expenditure : January - April 2018

Sources: Department of National Budget, Department of Treasury Operations and Department of Fiscal Policy

Revenue generated from Excise duty increased by 9.7 percent to Rs. 170,839 million during the first four months in 2018 achieving 31.9 percent of the annual estimate in 2018. This was mainly supported by the increase in revenue from motor vehicles by 15.3 percent to Rs. 73,774 million due to the increased in the motor vehicle imports. The revenue collected from production of liquor increased by 8.0 percent to Rs. 41,322 million during the review period reflecting the upward revision of duty rates on liquor and related license fees. Meanwhile, the revenue collected from cigarette and tobacco significantly increased by 25.2 percent to Rs. 29,843 million supported by the enhanced cigarette stick production by 9.7 percent to 1,101 million sticks for the first four months in 2018. However, revenue from petroleum

products contracted by 13.6 percent in the reference period. This was due to the decline in imports of diesel/gas oil by 13.1 percent despite the increase of import of petrol by 8.0 percent during the first four months of 2018. Meanwhile, imposition of Excise duty on plastic resin and sugar based carbonate beverages contributed to increase the revenue from Excise duty.

Budget 2018 proposed to remove approximately 1,200 para-tariff lines in order to facilitate Free Trade Agreements (FTAs). In line with this proposal, 900 items were removed from Ports and Airports Development Levy (PAL) and Commodity Export Subsidy Scheme (CESS) levy. Revenue collected from PAL increased by 11.5 percent to Rs. 36,080 million in the first four months of 2018. However, revenue from CESS declined by 14.8 percent to Rs. 17,220 million in the first four months of 2018 due to the removal of tariff lines and tax reliefs granted on products such as wheat flour and unbranded new tyre casing.

Revenue from SCL marginally declined by 0.5 percent to Rs. 23,961 million in the review period due to the rate revisions made in selected commodities to support domestic production. Similarly, revenue collected from import duty significantly dropped by 38.1 percent to Rs. 29,340 million during the first four months of 2018 compared to the same period in 2017. This was mainly due to the duty waivers granted on certain items and the revision of Import Control License requirements.

On the expenditure front, the government continued several measures to rationalize expenditure and strengthen the expenditure monitoring process during the first four months of 2018. The total government expenditure increased by 6.1 percent to Rs. 873,350 million in the first four months of 2018 compared to Rs. 823,260 million recorded in the same period of 2017. The recurrent expenditure increased by 9.5 percent to Rs. 685,966 million whereas capital expenditure declined by 4.8 percent to Rs.187,384 million during the review period. Government budget deficit stood at Rs. 250,638 million during the first four months of 2018 compared to Rs. 233,171 million in the same period of 2017.

3.2 Government Revenue

Total government revenue increased by 5.6 percent to Rs. 622,379 million in the first four months of 2018 in comparison to Rs. 589,440 million in the same period of 2017. The tax revenue increased by 2.8 percent to Rs. 570,472 million in the first four months in 2018 from Rs. 554,716 million in the same period of 2017 reflecting the increase in revenue generated from income tax and domestic consumption and import-based taxes.

The increase of total revenue was mainly due to the higher revenue collection from income tax (12.3 percent) and excise tax (9.7 percent). Tax revenue from PAYE increased by 20.3 percent to Rs. 14,711 million in the first four months period of 2018. Also, Economic Service Charge (ESC) increased significantly by 25.0 percent to Rs. 24,320 million in the review period. Revenue from excise tax on cigarette including tobacco increased by 25.2 percent to Rs. 29,843 million and excise tax on motor vehicle increased by 15.3 percent to Rs. 73,774 million in the review period.

3.2.1 Tax Revenue Income Tax

The revenue generated from corporate and non-corporate income tax increased by 11.4 percent to Rs. 38,620 million in first four months of 2018 compared to Rs. 34,681 million in the respective period of 2017. The revenue from PAYE tax increased by 20.3 percent to Rs. 14,711 million during the first four months of 2018 from Rs. 12,230 million in the review period of 2017. The tax on ESC increased significantly by 25.0 percent to Rs.24,320 million in the first four months of 2018 compared to the same period of 2017 due to the introduction of ESC at the point of importation of vehicles. However, the revenue from tax on interest declined by 4.8 percent to Rs.17,477 million mainly due to the relatively lower issuance of government securities.

Value Added Tax (VAT)

The total VAT revenue increased by 4.5 percent to Rs. 159,249 million during the first four months of 2018 in comparison to Rs. 152,451 million in the same period of 2017 driven by the increased domestic economic activities. The revenue from VAT on domestic activities increased by 5.6 percent to Rs. 102,220 million in the review

period compared to Rs. 96,806 million in the same period of 2017. Meanwhile, the revenue from VAT on imports increased marginally by 2.5 percent to Rs. 57,029 million during the first four months of 2018 compared to the same period of 2017 due to the increased VAT revenue from the items such as Coal, milk powder, Cement and Lubricants.

Excise Duty

The revenue collected from excise duty increased by 9.7 percent to Rs. 170,839 million in the first four months of 2018 compared to Rs. 155,696 million in the same period of 2017 due to the rise in revenue collection from major items such as liquor, cigarettes and tobacco and motor vehicles except petroleum products. This was a 31.9 percent achievement against the annual estimates. Revenue from excise duty remained as the largest single contributor accounting for 29.9 percent to the total tax revenue for the review period.

Total	155,696	170,839	9.7

Table 3.7 | Performance of Excise Duty (January - April 2018)

Source : Department of Fiscal Policy

Revenue collected from liquor increased by 8.0 percent to Rs. 41,322 million in January-April 2018 compared to Rs. 38,262 million in the same period of 2017. This surge was mainly due to the increase in excise duty rates on hard liquor in line with the Budget 2018 coupled with Government policy towards discouraging liquor consumption in Sri Lanka. As a result, hard liquor production declined by 47.4 percent to 8.9 million liters during the reference period.

The revenue from Excise duty on motor vehicles increased by 15.3 percent to Rs. 73,774 million in January to April, 2018 compared to Rs. 64,004 million in the same period of 2017. This was mainly attributed to the increase in import of motor cars by 127.1 percent to 30,236 in the review period compared to 13,313 recorded in the same period of 2017 stemming from the Excise duty reduction on motor vehicles less than 1000 CC category and the introduction of unit rate basis for tax collection. Also, the upward revision of duty rates for motor vehicles and three wheelers helped increase Excise duty revenue. However, motor cycle imports declined by 8.6 percent for the first four months in 2018 compared to the same period in 2017 due to the upward revision of duty structure.

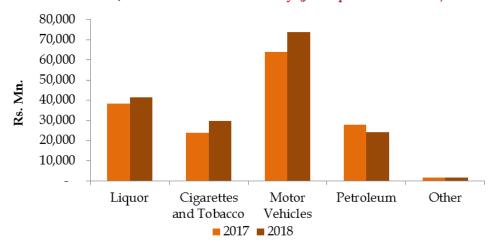

Chart 3.2 | Performance of Excise Duty (Jan-Apr 2017 and 2018)

The revenue generated from cigarettes and tobacco increased by 25.2 percent to Rs. 29,843 million in the period of January to April of 2018 compared to Rs. 23,840 million in the same period of 2017. It was a 33.1 percent achievement from the annual estimate of 2018. This revenue increase was mainly due to the increase in production of cigarettes by 9.7 percent to 1,101 million sticks in the review period.

However, the revenue generated from petroleum products declined by 13.6 percent to Rs. 24,179 million in first four months of 2018 compared to Rs. 27,995 million in the respective period of 2017 reflecting the decrease in import of diesel/ gas oil by 13.1 percent for the review period.

Import Duty

The revenue generated from import duty declined by 38.1 percent to Rs. 29,340 million in the first four months of 2018 compared to Rs. 47,392 million in the same period of 2017. It was a 5.1 percent of total tax revenue. The decline was mainly attributable to the revisions of Import Control License requirements, exemptions granted with the general duty waiver on importation of Petrol, Diesel, wheat grain and milk powder and the newly prescribed method for determination of Customs value for the disposal of motor vehicles imported under an approved scheme of exemption of duty on a conditional basis. Moreover, the import of duty exempted items such as fertilizer, pharmaceutical manufacturing items and machinery and equipment used for specified projects affected to the performance of the revenue generated from import duty. Furthermore, the importation of many products which were granted duty free or normal duty status under the Free Trade Agreements to strengthen bilateral and regional trade continued during the period.

Special Commodity Levy

The total revenue from SCL declined by 0.5 percent to Rs. 23,961 million during the first four months of 2018 compared to Rs. 24,091 million recorded in the review period of 2017. This marginal performance was mainly due to the downward revisions of SCL rate on rice varieties, maize, sprats, dried fish, potato, B'onions, black-gram, grated or powdered cheese and duty extension granted on lentils, mackerel fish, dried fish, Maldive fish, peas, chickpeas, *Kurakkan* etc.

Nation Building Tax (NBT)

The revenue generated from the NBT increased by 7.2 percent to Rs. 24, 713 million in the first four months of 2018 compared to Rs. 23,056 million in the same period of 2017. The revenue collected from NBT on domestic activities increased by 8.7 percent to Rs. 18,289 million while revenue from NBT on imports increased by 3.1

percent to Rs. 6,424 million in first four months of 2018. The policy measures taken to remove the exemptions on construction contractors and sale of residence apartments contributed to the increase in revenue from NBT. In the first four months of 2018, Rs. 12,357 million was transferred to Provincial Councils (PCs) under the revenue sharing mechanism.

Rs. Million

Table 3.9 Revenue Transferred to Provincial Councils (January - April 2018)	

	NB	Г	Motor Vehicle	Stamp	
Month	Inland Revenue Department	Customs	Registration Fees	Duty	Total
January	2,626	843	184	1,596	5,249
February	1,845	825	200	176	3,046
March	2,009	798	206	207	3,220
April	2,665	746	192	1,756	5,359
Total	9,145	3,212	782	3,735	16,874

Source : Department of Fiscal policy

Other Taxes

Revenue collected from PAL increased by 11.5 percent to Rs. 36,080 million in the first four months of 2018 compared to Rs. 32,353 million in the same period of 2017. It was about 5.8 percent of the total tax revenue in the first four months of 2018. The total revenue collected from Cess on imports and exports amounted to Rs. 17,220 million, a 14.8 percent decline compared to the same period of 2017. This was mainly due to the removal of applicable Cess rates on identified 253 items such as meat, dairy products, dates, grapes, pears, beer and wine, etc.

Meanwhile, the revenue collected from Telecommunications Levy declined by 16.5 percent to Rs. 9,705 million during the first four months of 2018 compared to Rs. 11,616 million recorded in the same period of 2017. This was mainly due to the removal of taxes for internet services followed by the deferment of the implementation of Sim Card Activation levy.

3.2.2 Non-tax Revenue

Total non-tax revenue, which accounted for 8.3 percent of the total revenue during the first four months of 2018, increased by 49.5 percent to Rs. 51,907 million compared to Rs. 34,724 million recorded in the same period of 2017. This increase was mainly due to the Central Bank's profit transfers of Rs. 14,227 million during the review period. Moreover, the increase of non-tax revenue from sales and charges by 20.7 percent to Rs. 23,268 million, interest income by 5.9 percent to Rs.1,813 million, social security contributions by 2.4 percent to Rs. 7,679 million and other income by 80.9 percent to Rs.1,054 million also positively contributed to this revenue performance. However, the non-tax revenue from profit and dividends declined significantly by 35.6 percent to Rs. 2,814 million during the first four months of

2018 compared to the same period of 2017. This deviation of revenue was due to the weak financial performances of SOEs.

Table 3.10 | Variance Analysis of Government Revenue (January- April)

Rs. Million

Item	2017	2018 Est.	2018	Reasons
Income Tax	84,721	93,700	95,128	The implementation of new Inland Revenue Act effective from April 1, 2018 and strengthening the tax administrative process through the RAMIS at IRD helped to augment the revenue collected from Income tax. Specially, ESC revenue increased significantly with the reduction of ESC threshold and the imposition of ESC on importation of motor vehicles. Broadening the slabs applicable to the calculation of personal taxable income and widening progressive tax rate up to 24 percent for employment income helped increase the PAYE tax revenue. However, the removal of tax exemption granted on the interest on government securities negatively affected to withholding tax revenue.
VAT	152,452	171,700	159,249	The expansion of domestic activities and the rise in imports bill were attributed to the increase in VAT revenue. The rise in imports such as Coal, Milk Powder, Cement and Lubricants supported to increase import VAT revenue. Further, monitoring of payments and receipts with the implementation of RAMIS, increased tax audits and strengthening the tax administrative process at IRD positively contributed to this increase.
Excise Tax	155,696	176,600	170,839	The increase in revenue collected from excise duty was mainly driven by the improved performance in tax collection from cigarette and tobacco, motor vehicles and liquor. Excise duty revenue from motor vehicles increased due to the increased motor cars imports by 127.1 percent particularly, less than 1000cc cars. Excise duty revenue from cigarettes increased with the increased production of cigarettes by 9.7 percent to 1,101 Mn sticks in the period under review. However, revenue from the petroleum declined due to the reduction in diesel imports during the review period.

Non-tax Revenue	34,724	53 <i>,</i> 500	51,907	collection of Social Security Contribution from public sector employees due to the basic salary hike, the rise in sales and charges and the inclusion of revenue from the United Nations Peace Keeping Operations into the Consolidated Fund were positively attributed to increase non-tax revenue. However, the drop in profits and dividends by State Owned Business Enterprises and rental income negatively affected to the revenue.
				Profit transfers from the Central Bank were mainly attributed to increase in non-tax revenue. Increased
Other Taxes	59,045	69,400	55,124	The revenue from Cess on imports declined by 15.6 percent due to the removal of applicable Cess rates on identified 253 items and reduction of Cess on wheat flour. However, the Cess revenue from exports increased by 1.7 percent due to the increase in world demand for tea, rubber and mineral sectors. The revenue from Telecommunications Levy declined by 16.5 percent due to the removal of the taxes for internet services. The drop in call duration both international and local was also contributed to decline the Telecommunication levy.
Nation Building Tax (NBT)	23,056	27,000	24,712	The revenue from NBT increased due to the policy measures taken to remove exemption on construction services by a contractor, sales of residential apartments, services of inbound travel agents received in foreign currency etc.
Ports and Airports Development Levy (PAL)	32,353	37,500	36,080	PAL revenue increased due to the rise in imports of intermediate goods such as petroleum, fertilizer and gold etc. However, granting the concessionary rate of 2.5 percent for high tech machinery and equipment which was applied the standard rate of 7.5 percent has led to this deviation.
Import Duty	47,392	60,800	29,340	The adverse impact of granting general tax waivers on major import items such as petrol, diesel, wheat grain and milk powder and the importation of products granted under the Free Trade Agreements (FTA) contributed to this decline.

Box 3.1 | Major Fiscal Measures: January 2018 - June 2018

	Dox 5.1 [Wajor Fiscal Weasures: January 2010 - June 2010						
Effective	Measures

20.03.2018	Special Commodity Levy Act, No. 48 of 2007 (Gazette Notification No.2063/13 of 19.03.2018) - To remove SCL on importation of Black gram to Rs.100 per kg.
01.04.2018	 Special Commodity Levy Act, No. 48 of 2007 (Gazette Notification No.2064/49 of 01.04.2018) To extend the validity period for Potatoes, Rice, Yogurt, Butter, Garlic, Oranges, Grapes, Apples, Mathe seed, Kurakkan, Ground nut, Mustard seed, Salt with the prevailing duty rates.
02.05.2018	 Special Commodity Levy Act, No. 48 of 2007 (Gazette Notification No.2069/18 of 01.05.2018) To increase the duty on importation of potato Rs. 30 per Kg to Rs. 40 per Kg and Rs.1 per Kg to Rs. 40 per Kg on importation of B onions.
08.05.2018	 Special Commodity Levy Act, No. 48 of 2007 (Gazette Notification No.2070/2 of 08.05.2018) To extend the validity period of the existing SCL duty on 11 items for another period of 6 months.
09.05.2018	 Special Commodity Levy Act, No. 48 of 2007 (Gazette Notification No.2070/6 of 09.05.2018 To increase the duty on importation of whole lentils Rs.1 per Kg to Rs.7 per Kg to Rs.12 per Kg on importation of split Lentils.
21.05.2018	 Special Commodity Levy Act, No. 48 of 2007 (Gazette Notification No.2071/85 of 20.05.2018) To extend the validity period of the existing SCL duty on 6 items for another period of 6 months.
01.06.2018	 Special Commodity Levy Act, No. 48 of 2007 (Gazette Notification No.2073/37 of 31.05.2018) To increase the duty on coconut and related products by Rs.20 per Kg compare with the end of last year considering the stabilization of prevailing market prices. Administrative Changes
28.04.2018	The domestic gas price was increased by Rs. 245 for a 12.5 Kg cylinder.

3.3 Government Expenditure

The total government expenditure was Rs. 873,350 million during the first four months of 2018, an increase of 6.1 percent compared to the same period of 2017, of which recurrent expenditure was Rs. 685,966

million and the capital expenditure was Rs. 187,384 million. Recurrent expenditure increased by 9.5 percent, reflecting the increase in salaries and wages of the government employees and pensioners and interest payments while public investment declined by 9.5 percent in the review period.

Salaries and Pension

Expenditure on salaries and wages of public servants including Provincial Councils increased moderately by 3 percent to Rs. 204,334 million in the first four months of 2018, compared to the same period of 2017. The pension payment was Rs. 62,729 million for the first four months of 2018, an increase of 6 percent over the same period of 2017.

Interest Payments

The expenditure on interest payments increased by 8.1 percent to Rs. 271,545 million during the first four months of 2018 compared to Rs. 243,499 million in the same period of 2017. Out of the total interest payments, Rs. 217,661 million was for interest payments for the domestic debt and the rest, Rs. 53,884 million for interest payments for foreign debts.

Welfare Expenditure

Total expenditure on welfare payments and subsidies during the first four month of 2018 increased by 20 percent amounting to Rs. 468,548 million. The payments includes:

- Samurdhi relief;
- Elders allowance;
- Monthly allowances for July Stickers;
- Fertilize subsidies;
- Food nutritional programe for pregnant Mothers (poshanamalla); and

• Special grant for Kidney patients. The welfare assistance provided to support for the needy people of the society including Samurdhi cash grant, payments to elderly and parents of security personnel and flood and drought relief to affected families amounted to Rs 27,727 million, of which the compensation for dead service and differently-abled soldiers amounted to Rs.9,461 million during the first four months of 2017 compared to Rs. 9,032 million in the same period of 2017.

The government continued national programmes such as Phoshanamalla, Thriposha programme, fresh milk and school nutritional programmes spending Rs. 3,281 million in the first four months with the intention of improving maternal and child healthcare. This amount included Rs. 509 million for Thriposha programme and Rs.1, 316 million for Phoshanamalla programme.

The welfare programmes implemented for the benefit of school children by providing free text books, uniforms, season tickets, health insurance for school children, free Dhamma school text books and bursaries continued at a cost of Rs. 3,375 million during the period. The priority has been given by the government to provide free medicine for all with no disruption spending Rs.14,174 million during the first four months of the year. Under the fertilizer subsidy programme, the government incurred Rs. 8,009 million during this period to provide all varieties of fertilizer for paddy farmers and other small crop holders.

Public Investment Expenditure

1. School Education

During the first four months of 2018, the total expenditure for school education was Rs. 67,725 million of which Rs. 57,164 million for recurrent expenditure and Rs. 10,561 million for capital expenditure. The expenditure on welfare programs were Rs. 3,644 million, an increase of 9 percent compared to same period of 2017. This was due to the increase of cost of nutritional food per student per day to Rs. 30 from Rs. 25. Also, the packet of milk has been increased by Rs.1 to Rs.21.

Having considered the importance of adequate Infrastructure for quality education, investment for general education development projects have been increased significantly by providing Rs. 8,677 million during the first four months of 2018, which is an increase of 50 percent over the same period of 2017.

The "Nearest School is the Best School" (NSBS) program which was started in 2017 continued in 2018. The total investment for NSBS program was Rs. 7,627 million as at end of April 2018.

2. Higher Education

The Government has spent Rs. 14,609 million during the first four months of 2018 for the development of higher education, of which recurrent and capital expenditure were Rs. 9,800 million and Rs. 4,809 million, respectively.

Rs. 1,253 million was incurred for the construction of new building complexes for establishment of technological faculties in ten (10) universities at end April 2018. During the first four months of 2018, 238 university students have obtained loans to purchase laptops and also Rs. 71 million was paid to the People's Bank and Bank of Ceylon to bear the interest cost of the loans provided since 2016.

The total expenditure for the Skills Development and Vocational Training was Rs 2,481.5 million of which Rs. 1,978 million for recurrent expenditure and Rs. 503.5 million for capital projects for the first four months of 2018.

The total expenditure on capital projects under the Ministry of Science, Technology and Research was Rs. 820.5 million at the end of April 2018.

3. Health

The total government expenditure on health including of Western and indigenous medicine sectors increased by 11.6 percent to Rs. 68,806 million during the first four months of 2018 compared to the same period of 2017 covering both Provincial and Central Government health expenditure. Out of the total health expenditure, the recurrent expenditure was Rs. 59,634 million and the capital investment was Rs. 9,172 million.

4. Irrigation and Water Resources Management

The Government has invested Rs. 12,581 million for the development activities related to irrigation and water resources management during the first four months of 2018, of which, Rs 9,896 million was spent on development of Mahaweli irrigation schemes through rehabilitation and construction of new reservoirs under the Ministry of Mahaweli Development. The balance, Rs. 2,865 million has been invested by the Ministry of Irrigation and Water Resources and Disaster Management for the development of irrigation schemes and construction of reservoirs. The expenditure on major irrigation schemes such as Moragahakanda, Kaluganga and Uma Oya projects amounted to Rs. 2,906 million during the review period. Yan Oya project, which secured the largest portion of the total allocation for development activities under the Ministry of Irrigation and Water Resources and Disaster Management exhibited nearly 100 percent financial progress as at end of the first four months of 2018.

6. Water Supply and Sanitation

With a view to provide access to safe drinking water and quality sanitation services, the government has invested Rs.18,495 Mn on water supply and sanitation during the first four months of 2018, including providing support to the National Water Supply and Drainage Board (NWS&DB) to meet the cost financing of such loans from both domestic and foreign banks. Budgetary provisions of Rs.10,009 Mn was provided through the Annual Budget and Rs.6,385 Mn of loans was directly borrowed by NWS&DB. Further, it includes the People's Bank loan proceeds of Rs. 2,101 million which has been utilized as domestic counterpart funds of foreign funded water supply and sewerage projects.

In addition, Rs. 473 million has been invested by the Ministry of Provincial Councils and Local Government during the first four months in 2018 to improve the sanitation services in the city of Colombo and Greater Colombo area.

7. Highways and Bridges

The government has spent Rs. 33,468 million within the first four months of 2018 as capital expenditure for national roads, expressway development and construction of bridges and flyovers. Expressway development accounted for Rs. 4,861 million and highways Rs. 2,730 million. Rs.5,686 million was spent on widening and improvement of roads while Rs. 598 million

was invested on the construction of bridges and flyovers. Rs. 1,704 million was spent on the projects implemented under Maganeguma Rural Road Development Programme.

Several road construction, rehabilitation and maintenance project were continued with the financial support of foreign and local sources. Among them, the Central Extension of Southern Expressway, Expressway, Priority roads projects, i-road project, New Kelani Bridge project. Three flyovers at Rajagiriya, Polgahawela and Ganemulla were opened for public by January 2018. The Government has paid considerable amount for interest and capital repayment of local bank funded road projects and Rs. 15,319 million was paid for the first four months period.

9. Power and Energy

With a view of strengthening the financial position of the Ceylon Electricity Board (CEB) and facilitating operations through its self-generated earnings, the Government decided to convert the loans of CEB to equity capital since 2014. As a result, the contribution of the Government for the revenue making power projects was gradually decreased.

During the first four months of 2018, the Government invested Rs. 256.6 million in power and energy sector projects. This includes the expenditure incurred for Clean Energy and Network Efficiency Improvement Project and Promoting Sustainable Biomass Energy Production and Modern Bio-Energy Technologies Project amounting to 1.75 million and Rs.1.70 million, respectively. Meanwhile, Polipto Lanka (Pvt) Ltd, a project to convert plastic

into fuel, has spent Rs. 3 million during the above period.

10. Urban Development

Integrated Government expenditure in the first four months of 2018 for the development of urban facilities was Rs. 7,900 million of which Rs. 6,743 million was under the Ministry of Megapolis and Western Development and Rs. 1,157 million was under the Ministry of City Planning and Water Supply.

Expenditure under the Ministry of Megapolis and Western Development mainly focused on transforming the entire Western Province into a Megapolis area to be part of comprehensive development programme. In addition to Western Region Megapolis, developing strategic cities such as Galle, Kandy, Jaffna, Anuradhapura and Trincomalee has also been given priority ensuring the benefits of urbanization will be evenly distributed across the country. Ministry of City Planning and Water Supply focus on upgrading towns and cities especially in the lagging regions of the country.

3.4 Treasury Operations

Performance of the Cash Flow of the General Treasury

Cash inflows from revenue and other receipts to the General Treasury augmented by 5.0 percent to Rs. 607.5 billion during the first four months of 2018 compared to the same period of previous year. Meanwhile, total cash outflows for both recurrent and capital expenditure increased by 6.7 percent to Rs. 854.3 billion during the first four months of 2018. Hence, the net cash deficit increased by 11.1 percent to Rs. 246.8 billion in the first four months of 2018 compared to Rs. 222.1 billion in the same period of 2017. Increased operational and investment expenditure has led to increasing the overall closing cash balance to Rs. 125.3 billion as at 30th April 2018.

CHAPTER 4

Performance of State Owned Business Enterprises

4.1 Overview

Given the importance of the State Owned Enterprises (SOE's) specially the State Owned Businesses Enterprises (SOBEs) to the economy, the government has taken several measures to encourage and facilitate the SOBEs to be self-sufficient through improved corporate practices, management reforms, innovative financing, strong and prudent financial management, exposure to competitiveness and international bestpractices and effective human resource management while enhancing public accountability.

During 2017, 55 SOBEs alone have recorded a total turnover of Rs. 1,755.5 billion which is almost 13.2 percent of the Gross Domestic Product (GDP). Out of the 55 SOBEs, 39 recorded a net profit amounting to Rs. 136 billion while 16 SOBEs made net losses amounting to Rs. 87 billion during 2017. The total asset base of SOBEs grew by 13.6 percent in 2017 over 2016 and it accounted for almost 56.8 percent of GDP.

The Department of Public Enterprise (PED) Statement of Corporate Intent (SCI) was introduced by the Department of Public Enterprises (PED) during 2017 with a view to improve the performance of those SOEs. The SCI contains key performance indicators targeting the key activities of the entity which will be reflected in improved financial and non-financial performance of the entity.

The SCI would enable to contribute positively to the strategically important SOBEs towards achieving Sri Lanka's economic goals by enhancing the contribution to the GDP of the country. In achieving the set objectives of these SOBEs, the key expectations of the government are to making these SOBEs to commercial viable entities, while improving accountability and better governance.

During 2017, five key SOBEs, namely Ceylon Petroleum Corporation (CPC), Ceylon Electricity Board (CEB), Sri Lanka Ports Authority (SLPA), Airport and Aviation Services Ltd (AASL) and National Water Supply and Drainage Board (NWS &DB) were party to the SCI having signed a tripartite agreement with the management of the respective SOBEs, Ministry of Finance and relevant line ministries. Currently, the PED is in the process of monitoring the progress of meeting objectives of SCIs.

Subsequently, followed by the approval of the Cabinet of Ministers, it is planned to sign SCIs with another 10 selected SOBEs, Sri Lanka State Plantation Corporation, Urban Development Authority, Lanka Sathosa (Pvt) Ltd, Central Engineering Consultancy Bureau, State Timber Corporation, Sri Lanka Transport Board, State Pharmaceuticals Corporation, Milco (Pvt) Ltd, National Livestock Development Board and Geological Survey and Mines Bureau by end July 2018.

4.2 Review of the ten major SOEs

Bank of Ceylon (BOC)

The asset base of the BOC surpassed Rs. 2 trillion by the end of April 2018 from Rs. 1.9 trillion as at end 2017. The deposit base of the bank increased by 3.8 percent to Rs. 1,606 billion during the first four months of 2018 compared to the deposit base of Rs. 1,547 billion as at end 2017. Non-performing loan ratio of the bank increased in the first four months of 2018 to 4.3 percent from 2.8 percent recorded as at end 2017. The bank's profit before tax decreased by 15.7 percent to Rs. 8.6 billion for the first four months of 2018 compared to Rs. 10.2 billion in the corresponding period of the previous year.

People's Bank (PB)

People's Bank asset base increased by 5.7 percent to Rs. 1,551 billion by end April 2018 from Rs. 1,467 billion as at end 2017. Deposit base of the bank increased by 5.0 percent to Rs. 1,306 billion by end April 2018 from Rs. 1,244 billion as at end 2017. Loans and advances increased by 7.8 percent in the review period to Rs. 1,158 billion. PB recorded a profit before tax of Rs. 7.8 billion for the first four months of 2018 in comparison to Rs. 4.6 billion witnessed in the corresponding period of 2017.

National Savings Bank (NSB)

National Savings Bank's asset base recorded an increase of 3.7 percent to Rs. 1,050 billion as at the end April, 2018 from Rs. 1,012 billion as at end of 2017. Deposit base of the bank increased by 4.7 percent to Rs. 772 billion by end April 2018 from Rs. 737 million as at end 2017. Loans and advances increased by 3.1 percent to Rs. 402 billion during the first four months of 2018. NSB recorded a profit before tax of Rs. 3.9 billion for the first four months of 2018 in comparison to Rs. 3.5 billion for the corresponding period of 2017.

Sri Lanka Insurance Corporation (SLIC)

During the first four months of 2018, Sri Lanka Insurance Corporation (SLIC) has recorded a profit before tax of Rs. 2,258 million and total revenue of Rs.14.8 billion, an increase of 10.4 percent compared to the total revenue of Rs.13.4 billion during the corresponding period in 2017. Strengthening the effective management of the corporation vacancies of the key management positions were filled during this period.

The corporation declared the biggest bonus in the industry for its life insurance policy holders valuing Rs. 6.8 billion. SLIC has planned to re-commence the 'Suba Pathum Scholarship' scheme for underprivileged children and the Call-to-Donate project to raise funds for the pediatric ward of the cancer hospital in 2018.

Ceylon Electricity Board (CEB)

CEB had recorded revenue of Rs. 54,489 million during the first quarter of 2018 compared to the Rs. 50,476 million in the same period of 2017. However, an operating loss of Rs. 14,702 million has been recorded in the first quarter of 2018 compared to the operating loss of Rs. 12,443 million in the same period of 2017. Cost per unit without tax increased to Rs. 20.75 per kWh in the first quarter of 2018 over Rs. 20.19 per kWh recorded in 2017. The depreciation of rupee against the US dollar impacted adversely on the CEB's performance to some extent. Generation mix comprised with 901 GWh Hydro, NCRE & Wind 1,430 GWh Thermal (Fuel) and 1,557 GWh Thermal (Coal) during the reporting quarter, which has changed from 15:39:46 in first three months of 2017 to 23:37:40 for same period in 2018.

The total outstanding obligations to the banks from CEB in the first quarter amounted to Rs. 44,340 million compared to Rs. 31,744 million in the same period of 2017. In the absence of implementing a cost-reflective pricing mechanism, CEB had to manage its liquidity requirements through borrowing from the state banks which has led to increase CEB's borrowings. In addition, the total outstanding to CPC and IPP increased to Rs. 86,995 million in the first quarter 2018 compared to the Rs. 53,033

million reported during the same period of 2017.

In the context of developing wind energy as a source of renewable energy, in April 2018 'Sulang Bala Meheyuma' project was launched at National Renewable Energy Park, Hambanthota and initiatives were taken to implement 100MW wind power project in Mannar.

Ceylon Petroleum Corporation (CPC)

The CPC recorded an operating loss of Rs. 11,143 million in the first four months of 2018 against the operating profit of Rs. 3,553 million recorded in the same period of 2017. The average price of a barrel of Brent crude oil was around USD 66.95 per barrel during the first four months of 2018 while it was recorded around USD 53.96 per barrel in first four months in 2017.

The total cost of the sales of the CPC during first 4 months of 2018 increased by 17 percent to Rs. 164,821 million compared to Rs. 139,845 million recorded in the same period of 2017. The depreciation of Sri Lankan Rupee against the USD also adversely affected to the bottom line of the performance of the CPC. The exchange rate impact during the first four months of 2018 was Rs. 9,146 million compared to Rs. 5,652 million recorded in the same period of 2017.

The operational and financial shocks of the CPC is temporary absorbed by the government owned two commercial banks i.e. Bank of Ceylon and Peoples Bank. The total amounts payable to these two banks as at 30.04.2018 has reached to Rs. 375,496 million.

Having considered overall impact to the economy, the government has already established a pricing formula for the transport related petroleum products and the kerosene with effect from May 2018. As such, the financial burden related to administrative pricing mechanism will be ease-off with this new initiative. However, the CPC accumulated losses and negative net worth amounted to Rs. 218,609 million and Rs. 174,940 million, respectively as at 30.04.2018.

Sri Lanka Ports Authority (SLPA)

Sri Lanka Ports Authority (SLPA) recorded Rs. 13.3 billion, the highest ever net profit for 2017. The main contributor to the profit has been the exchange gain from the removal of loans obtained by SLPA for the Hambantota Port Development Project. Two tranches of the sales proceeds amounting to USD 973,658,000 and USD 146,000,000 received in first quarter of the year 2018. Third tranche is due in the month of June 2018 after fulfilling the condition precedent to the concession agreement. This includes the execution of lease agreements with the Sri Lanka Navy and Ceylon Electricity Board pertaining to the land occupied by them within the leased area and handing over oil tanks free of oil being stored and for use in accordance with industry best practices. Government has undertaken to loans obtained service the for the Hambantota Development Project for China Exim Bank and Bank of Ceylon to pay the installments in the first quarter of 2018.

Based on the thumping profit made by SLPA, unions have demanded a salary hike. Accordingly, collective agreement for the year 2018-2020 has been signed with the employees having a Rs. 2 billion incremental cost of salary to SLPA. A salary revision of 5 percent has been considered in the assumption of the tripartite agreement; Statement of Corporate Intent (SCI) signed in 2017, with the Treasury, Ministry of Ports and Shipping, and SLPA. The quantum of salary hike may definitely hit the bottom line profit of SLPA during the agreed 3 year period of SCI. Further selling of Hambantota port may also have impact on the SCI targets in the future.

SLPA has recorded revenue of Rs. 14,381 million during the first four months of 2018. The main contributor to this income had been the navigation operations and stevedoring which is 62 percent of the total revenue of SLPA. SLPA handled 1,696 ships during the first four months of 2018, of which 1,474 ships handled by Colombo Harbor. Kankasanthurei Port (KKS) handled 29 ships in the first four months of 2018. The Cabinet has approved to develop KKS with the support of Indian Credit Line in the expectation of upgrading KKS harbor for commercial purposes as a self-sustainable commercial port. SLPA handled 2.25 million TEU's during the first four months of 2018.

SLPA is in the process of revising their tariff structure after 1998 to suit the competitive market conditions with the private port operators competing domestically with SLPA. includes simplifying This the documentation process to suit the automation and to eliminate definitions that lead to delays and malpractices. More than Rs. 500 million revenue is expected from this revision.

National Water Supply and Drainage Board (NWS&DB)

National Water Supply and Drainage Board (NWS&DB) has striving targets of achieving the total pipe borne water coverage to 60 percent, safe water supply coverage to 91.7 percent and piped sewerage coverage to 3.3 percent by 2020 from the existing level of 44.2 percent, 89.3 percent and 2 percent, respectively.

337 water supply schemes have been already launched and 62 projects are in the

pipeline for the NWS&DB. The General Treasury has provided Rs. 174 million during the first four months in 2018 in order to service the loans as approved by the Cabinet of Ministers to cover 50 percent of urban projects, 75 percent on rural projects and 100 percent on CKD reduction projects. With the view of meeting the obligations and to carry out the objectives as anticipated, the Ministry of Finance has approved borrowing limits amounting to Rs. 75,630 million for local funded Projects, USD 1,155.38 million and Euro 170.03 million for Foreign Funded Projects of NWS&DB as at 30.04.2018.

The NWS&DB recorded revenue of Rs. 7,892 million during the first four months of 2018 from Rs. 7,600 million during the same period of 2017. This was a 24 percent of the targeted revenue as per the Statement of Corporate Intent signed between tri-parties. Profitability of NWS&DB increased by 158 percent to Rs. 362 million over 2017 which is 6 percent of the anticipated profit.

The NWS&DB has an unacceptable amount of Non-Revenue Water (NRW), which is created due to leakages, metering problem and unauthorized consumption. Despite the decrease in NRW level to 25.9 percent at the end of first four months of 2018 from 27.8 percent for the same period in last year, it has a significant disturbance to the operational efficiency and financial position of the entity.

Airport and Aviation Services (Sri Lanka) Ltd (AASL)

Airport and Aviation Services Ltd. (AASL) increased its operating profit by 53 percent to Rs. 3,410 million in the first quarter of 2018 compared to Rs. 2,230 million in the same period of 2017. The government has signed the Statement of Corporate Intent (SCI), a tri-party agreement, in 2017 with the AASL for the next 3 years.

Government has signed a Bilateral Air Service Agreement between the government of Thailand and the government of Sri Lanka (GOSL) which may have positive impact on the AASL's revenue. Charter domestic air operations to promote tourism will be one of the main targets of the GOSL which may also have positive effects on the performance of the AASL.

Sri Lankan Airlines Ltd. (SLA)

According to the draft Financial Statements, Sri Lankan Airlines Ltd. (SLA) reported a revenue of Rs. 160,850 million during the Financial Year 2017/18, a 16 percent increase compared to the previous Financial Year 2016/17. This was mainly due to the combined effect of increase in passenger service and cargo service income by 25 percent and 23 percent, respectively. Operating profit, which was Rs. 7,489 million during the Financial Year 2016/17, has reduced to Rs. 3,721 million during 2017/18. H.E. the President appointed a Presidential Commission by the extraordinary gazette issued on 02.02.2018, comprising 5 members in order to investigate into the alleged irregularities in connection with the SLA, Mihin Lanka (MLL) and the SLA subsidiary, Sri Lankan Airlines Catering Ltd., including members from the Supreme Court, Court of Appeal, High Court, Sri Lanka Accounting and Auditing Standards Monitoring Board and the Auditor General. The investigations are currently carried out with the assistance of the Attorney General's Department.

SLA obtained the approval of Cabinet of Ministers to re-issue the Letters of Comfort issued to the Bank of Ceylon and the People's Bank on behalf of the SLA, for the loans obtained for the loss incurred during the Bandaranaike International Airport closure in 2017.

4.3 Reform Initiatives for Major SOBEs

Institution	Reform Initiatives
State Banks (BOC,PB & NSB)	 Promote digital banking among customers. Loan portfolios of BOC, PB and NSB highly depend upon the exposure to the Government including SOEs, which hinder the ability to extend loan facilities to new developing sectors of the economy and diversification of the product portfolio. Improve credit quality and enhance recovery mechanisms. Implement a Business Restructuring Process in the HDFC Bank to improve the performance in the medium term.
SLIC	• Initiative steps have taken to implement the life and general core system.
CEB	 In the context of developing wind energy as a source of renewable energy, in April, 'Sulanga Bala Meheyuma' project was launched at National Renewable Energy Park, Hambanthota Initiatives has been taken place to implement 100MW wind power project in Manner. Reforms to ensure that adequate investment are made for transmission and distribution, and to encourage the private sector to participate in providing transmission facilities within each Province. Action is being taken by CEB to implement the Bulk Supply Transaction account as per the requirement which specified by PUCSL. Automatic pricing formula for electricity would also be implement with developing the available "Tariff methodology".
CPC	 Statement of Corporate Intent (SCI) was signed by three parities namely the Chairman of CPC, Secretary of the Line Ministry and the Secretary to the Treasury. Government has taken steps to investigate the possibility of using the
	 Trincomalee upper tanks farm back to oil storage. The government has started initial work of setting up a new cross country pipeline with latest technologies with an objective to reduce the average time taken to discharge cargo to standard level which in turn helps to reduce the huge demurrages currently being paid by CPC.
	• The Pricing formula which was designed to operate CPC at viable position is to be implemented. It is envisaged that the proposed pricing formula will facilitate CPC to be profitable and as a result it will also be positively impact on the domestic financial sector as CPC will reduce the dependency for majority of their funding needs on the domestic financial markets.
NWS&DB	 In order to achieve the target of providing safe drinking water to entire population, it is important to seek different approaches to mitigate vulnerability of weather patterns to guarantee uninterrupted water supply.
	 Utilizing innovative financial mechanisms have become of a great importance to reach these targets within a stipulated time frame.

 The AASL is one of the 5 SOBEs that has entered into a Statement of Corporate Intent (SCI) with KPIs to be met in the medium term. As such, in terms of the SCI, the AASL during 2017, has been able to

- Having completed the project undertaken by AASL to upgrade aerodrome system along with the runway surfacing during 2017, the BIA currently can accommodate aircrafts as large as A380's. However, oversaturation of BIA capacity has hindered the efficiency of service delivery by the entity.
- AASL needs to make requested investments for related infrastructure development in advance to meet the forecasted demand at 2025.
- Since the runway at BIA has not been renovated in standard period, AASL made a required investment to complete the project in early 2017.

Chapter 5

Foreign Financing

5.1 Foreign Financing Commitments

The Government has made arrangements to mobilize foreign financing of US\$ 266.2 million by entering into 10 agreements with foreign development partners and lending agencies from 1st January to 30th April 2018, to support the public investment program. This consists of US\$ 219.2 million in the form of loans (Official Development Assistance - ODA) and US\$ 46.9 million by way of ODA grants and technical assistance. In addition, US\$ 2,500 million was raised through International Sovereign Bonds (ISB) during the period under review.

China leads the ODA commitments during this period of 2018 amounting to US\$ 79.8 million, followed by the Asian Development Bank (US\$ 75.0 million), India (US\$ 45.3 million), Australia (US\$ 25.0 million), USA (US\$ 17.9 million), Austria (US\$ 13.0 million), International Fund for Agricultural Development (IFAD) (US\$ 6.2 million), United Nations Population Fund (UNFPA) (US\$ 4.0 million) and United Nations High Commissioner for Refugees (UNHCR) (US\$ 0.01 million) respectively. During the period, US\$ 1,250 million was raised through the issuance of ISB's at a fixed interest rate of 5.75 percent with a 5-year tenure while the balance US\$ 1,250 million was raised at a fixed interest rate of 6.75 percent with 10-year tenure during the first four months of 2018.

Of the commitments made in the form of ODA during the first four months of 2018, the highest amount was committed for the railway sector (US\$ 79.8 million) while the small and medium enterprises sector received commitments of US\$ 75.0 million.

5.2 Foreign Financing Disbursements

and Utilization

Total foreign financing disbursements made for development projects and programmes during the period from 1st January to 30th April, 2018 amounted to US\$ 512.1 million, of which US\$ 508.2 million was disbursed as loans while US\$ 3.9 million was disbursed by way of grants.

The majority of the disbursements were from the loan agreements signed with the Asian Development Bank, which is almost 45 percent, followed by China (18 percent) and Japan (11 percent).

* Provisional

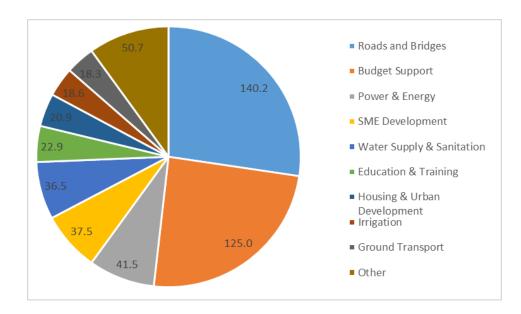

Chart 5.2 | Highlighting Disbursements Made by Development Partners from 1st January to 30th April 2018 (USD million)

Source: Department of External Resources

The majority of the disbursements was in lieu of the projects implemented under the Roads & Bridges sector accounting for almost 27 percent, followed by the Finance & Governance sector at 24 percent, Power and Energy sector at 8 percent and SME sector at 7 percent.

Chart 5.3 | Disbursements Made for each Sector from 1st January to 30th April 2018 (US\$ million)

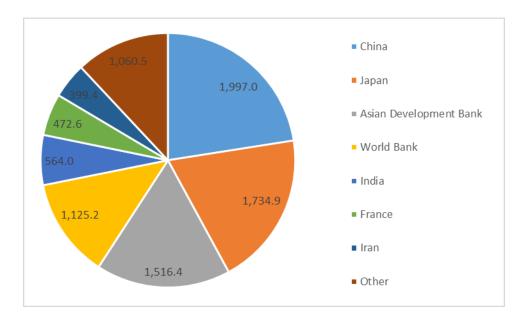

¹ CUB is affected by international sanctions imposed on Iran, CUB of SOEs are not included.

5.3 Committed Undisbursed Balance

(CUB)

As at 30th April 2018, the total undisbursed balance of foreign financing available from the already committed loans that are to be utilized in next 3-5 years, was US\$ 8,870.4 million. Almost 28 percent or US\$ 2,513.0 million has been committed for Roads and Bridges sector while US\$ 2,070.5 million is committed to Water supply and sanitation sector.

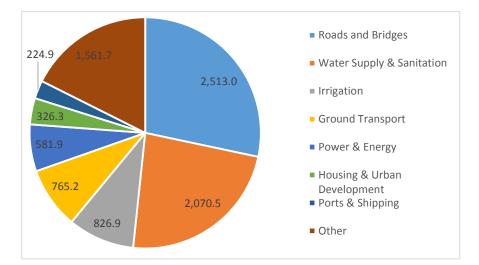

¹ Non-residential holdings of Treasury Bills/Bonds and outstanding debt of State Owned Enterprises (SOEs) are not included.

¹ Debt Service = Principal Payments + Interest Payments, Debt Service Payment of SOEs are not included

 1 US\$ estimations are based on the exchange rates as at 30th April 2018, Forecast was made based on existing portfolio only, i.e. debt stock to be accumulated due to new commitments were not included

Chart 5.5 | Sector-wise CUB of Development Projects and Programs as of 30th April 2018 (US\$ million)

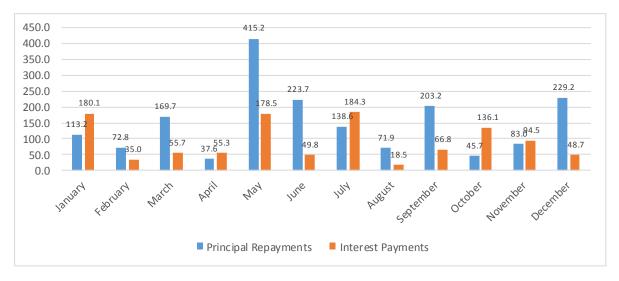

5.4 External Debt Stock and External

Debt Service Payments

By the end of April 2018, total outstanding external debt of the Government was US\$ 31.6 billion. Total debt service payments from 1st January to 30th April 2018 amounted to US\$ 715.6 million. Of which, US\$ 390.2 million was in lieu of principal repayments and the balance US\$ 325.4 million for the payment of interest.

Chart 5.6 | Debt Service Payments during January – April 2018 and Forecast¹ for the Remaining Period of 2018 (US\$ million)

Total estimated debt service for 2018 is US\$ 2,900.9 million, of which, 25 percent has already been made by 30th April 2018.

¹ US\$ estimations are based on the exchange rates as at 30th April 2018, Forecast was made based on existing portfolio only, i.e. debt stock to be accumulated due to new commitments were not included
